SPECTRA 2016

UiTM Faculty of Music in collaboration with the Goethe Institute, Kuala Lumpur, proudly brings to you, the Malaysia Music Technology Festival – SPECTRA 2016.

SPECTRA is an international biennial event which aims to promote and provide an alternative platform of expression for composers and musicians alike. It encourages technologically based interactions between the musicians (music performers, sound artists, composers), visual artists and the music aficionado while reaching out and establishing networks within the arts industry. The festival will be used to promote and foster the innovative and creative contemporary culture through experimental and explorative techniques with technology while at the same time introducing and spreading information about the potentials of technological-science applicability within the realm of composition and performance in music.

SPECTRA 2016 offers a wide range of music technology based activities and artistic components. The festival offers three core activities; art performance consists of electroacoustic-visual art performances, electronic or synth-visual art performances and sound installations for fixed media featuring works from Thailand, Australia, Germany, Italy, Spain, Mexico, Argentina, UK, US and local; exhibition on latest music technology products showcased by music companies; workshop on music technology based production by professional musicians from the industry such as CEE Bass Sekolah (Red Bull Music Academy alumni).

Be a part of SPECTRA! Come and join us on 22-23 October 2016, where artistic expression meets modern technology and the science of sound.
